

## Income Disclosure Statement

The ZOI Global Compensation Plan is an exciting opportunity that rewards you for selling our dietary supplements and for sponsoring other participants (“Distributors”) who do the same.

Although the opportunity is unlimited, individual results will vary depending on market conditions, commitment levels and sales skills of each Distributor. Since ZOI Global has recently launched, it lacks enough statistical data to prepare reliable and accurate income disclosures. The numbers below reflect estimates prepared by the company pending a more detailed survey to be conducted after its first year. Based on industry standards and company projections, the average annual gross revenue for Distributors is projected to be anywhere between \$500 and \$2,000. These numbers do not reflect the expenses associated with building a ZOI Global business, which could exceed the commissions received.

There will certainly be Distributors who will earn less while others will earn much more. We’re excited about the ZOI Global Compensation Plan and we’re confident it will provide you a solid foundation to help you achieve your financial goals.

If income projections were presented to you prior to your enrollment, such projections are not necessarily representative of the income, if any, that you can or will earn through your participation in the Compensation Plan. These income projections should not be considered as guarantees or projections of your actual earnings or profits.

Success with ZOI Global results only from hard work, dedication, and leadership.
