PRESS RELEASE

Last week **Clayton R Thomas** (“Thomas”), a former employee and member of Metron Nutraceuticals (“Metron”) approached Metron’s Distributor, ZOI Global (“ZOI”), in a malicious effort to interfere with and destroy the excellent cooperation between Metron and ZOI. Thomas used a fake identity, calling himself “Ray Owens” to present ZOI with false and defamatory information about Metron, its products, and Metron’s President. Thomas used threats against ZOI in an attempt to convince ZOI to end its business relationship with Metron.

This is not the first time Clayton Thomas has misrepresented his identity. In addition to “Ray Owens”, Thomas has used the alias, “Pierre Coleman.”

Unfortunately, this is also not the first time that Clayton Thomas has improperly tried to harm Metron’s business. In 2016, he left Metron with no choice but to file a lawsuit against him for his bad acts, resulting in Thomas being enjoined from the zeolite industry. In that case, the Court also put Thomas in Jail in Cuyahoga County, Ohio, for criminal contempt of Court. Even jail-time and defeat in prior litigation has not corrected Thomas’ behavior, but his improper acts have not and will not be accepted. This Press Release is however important to advise you all that Thomas, by his own name or one of his aliases, may continue in his efforts to spread false information. We live in a day and age where fact and source checking is critical, and Thomas is clearly making the need for the same even more critical.

Metron, with its Patented products, is focused on supporting the health and wellness of people everywhere. With ZOI and you, Metron looks forward to spreading good health and wellness support worldwide.

If you are contacted by an individual who is attempting to smear Metron and/or ZOI, please be skeptical of what you are told. This may be Thomas speaking to

you, using the name of someone else. Please do not hesitate to contact ZOI and/or Metron to question anything you are told.

Thomas uses the following email addresses and mobile telephone numbers that are known of so far: Fig888@gmail.com ; detoxsmart@yahoo.com ; (206) 851-2701; (206) 419-8225.

Metron operates with the highest ethical standards and will continue to take all the necessary actions to protect its intellectual property, its stellar reputation and its excellent cooperation with ZOI.
